## Overview

### Aims

This policy aims to promote a whole school approach to online safety by:

- Setting out expectations for all **Goldsborough Sicklinghall Federation** community members' online behaviour, attitudes and activities and use of digital technology (including when devices are offline)
- Helping safeguarding and the senior leadership team to have a better understanding and awareness of filtering and monitoring through effective collaboration and communication with technical colleagues at the Yorkshire Causeway Trust.
- Helping all stakeholders to recognise that online/digital behaviour standards (including social media activity) must be upheld beyond the confines of the school gates and school day, regardless of device or platform, and that the same standards of behaviour apply online and offline.
- Facilitating the safe, responsible, respectful and positive use of technology to support teaching & learning, increase attainment and prepare children and young people for the risks and opportunities of today's and tomorrow's digital world, to survive and thrive online
- Helping school staff working with children to understand their roles and responsibilities to work safely and responsibly with technology and the online world:
  - for the protection and benefit of the children and young people in their care, and
  - for their own protection, minimising misplaced or malicious allegations and to better understand their own standards and practice
  - for the benefit of the school, supporting the school ethos, aims and objectives, and protecting the reputation of the school and profession
- Establishing clear structures by which online misdemeanours will be treated, and procedures to follow where there are doubts or concerns.

### Further Help and Support

The **Goldsborough Sicklinghall Federation**'s internal school channels should always be followed first for reporting and support, as documented in school policy documents, especially in response to incidents, which should be reported in line with your Safeguarding Policy. The DSL (DDSL where appropriate) will handle referrals to local authority multi-agency safeguarding team and referrals to the LA designated officer (LADO).

Beyond this, the following sites contain a wealth of external support for pupils, staff and parents including the Online Safety Helpline from the UK Safer Internet Centre and the NSPCC Report Abuse Helpline.

### What are the main online safety risks in 2022/2023?

Online-safety risks are traditionally categorised as one of the 4 Cs: Content, Contact, Conduct or Commerce (see section 135 of KCSIE 2022). These areas provide a helpful approach to understand the risks and potential school response, whether technological or educational. They do not stand in isolation, and it is important to understand the interplay between all four. This is evident in Ofcom's Media and Attitudes Report 2022 which suggests 36% of children aged 8-17 had seen something 'worrying or nasty'

online in the past 12 months, with 84% experiencing bullying via text or messaging, on social media, in online games, through phone or video calls, or via other apps and sites.

KCSIE 2022 highlights additional risks e.g. extra-familial harms where children are at risk of abuse or exploitation to multiple harms in situations outside their families, including sexual and criminal exploitation, serious youth violence, upskirting and sticky design.

Analysis from the Centre of Expertise on Child Sexual Abuse also highlights the prevalence of child sexual abuse, with 500,000 children estimated to experience child sexual abuse every year, whilst the Internet Watch Foundation has identified the growing risk of children, especially girls aged 11-13, targeted online by sex predators, with a three-fold increase in abuse imagery of 7–10-year-olds. This highlights transition years as crucial in the fight against sexual exploitation, in primary and secondary. See [cse.lgfl.net](https://www.cse.lgfl.net) for resources to support DSLs, RSHE/PSHE leads and parents, including the [Undressed](#) campaign.

Following the Ofsted review into **peer-on-peer sexual abuse**, schools should follow the updated advice on sexual violence and harassment guidance (note this is no longer a standalone document and now incorporated in Part 5 of KCSIE where the term 'peer-on-peer' has been replaced with 'child-on-child') which has many online implications. Schools will need to review their policies and practice to reference these updates and ensure appropriate processes are in place to allow pupils to report sexual harassment and abuse concerns freely, knowing these will be taken seriously and dealt with swiftly and appropriately – ensure pupils are aware of the new [NSPCC helpline](#) and your school's internal reporting channels. Ways we can help you stay up to date with the latest news, risks, opportunities, best-practice and trends include the DigiSafe [blog](#), [newsletter](#) and our [Twitter](#)/[Facebook](#) channels.

Following covid, it is important to remember more time spent online increases the risk for grooming and exploitation (CSE, CCE and radicalisation) and potentially reduces opportunities to disclose such abuse.

## Scope

This policy applies to all members of the **Goldsborough Sicklinghall Federation** community (including teaching and support staff, supply teachers, governors, volunteers, contractors, students/pupils, parents/carers, visitors and community users) who have access to our digital technology, networks and systems, whether on-site or remotely, and at any time, or who use technology in their school role.

## Roles and responsibilities

Our Federation is a community, and all members have a duty to behave respectfully online and offline, to use technology for teaching and learning and to prepare for life after school, and to immediately report any concerns or inappropriate behaviour, to protect staff, pupils, families and the reputation of the school. We learn together, make honest mistakes together and support each other in a world that is online and offline at the same time.

Depending on their role, all members of the Federation should **read the relevant section in Annex A of this document** that describes individual roles and responsibilities. Please note there is one for All Staff which must be read even by those who have a named role in another section. There are also pupil, governor, etc role descriptions in the annex.

## Education and curriculum

It is important that schools establish a carefully sequenced curriculum for online safety that builds on what pupils have already learned and identifies subject content that is appropriate for their stage of development.

As well as teaching about the underpinning knowledge and behaviours that can help pupils navigate the online world safely and confidently regardless of the device, platform or app, [Teaching Online Safety in Schools](#) recommends embedding teaching about online safety and harms through a whole school approach and provides an understanding of these risks to help tailor teaching and support to the specific needs of pupils, including vulnerable pupils – dedicated training around this with curriculum mapping for RSHE/PSHE and online safety leads is available at [safetraining.lgfl.net](http://safetraining.lgfl.net)

RSHE guidance also recommends schools assess teaching to “identify where pupils need extra support or intervention through tests, self-evaluations or pupil voice to capture progress.”

The following subjects have the clearest online safety links (see the relevant role descriptors above for more information):

- Personal, Social, Health, Economic Education (PSHE)
- Relationships, Health and Sex Education (RHSE)
- Computing

Throughout our curriculum we include

However, as stated in the role descriptors above, it is the role of all staff to identify opportunities to thread online safety through all school activities, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise (which have a unique value for pupils)

Whenever overseeing the use of technology (devices, the internet, new technology such as augmented reality, etc) in school or setting as homework tasks, all staff should encourage sensible use, monitor what pupils/students are doing and consider potential dangers and the age appropriateness of websites.

Equally, all staff should carefully supervise and guide pupils when engaged in learning activities involving online technology (including, extra-curricular, extended school activities if relevant and remote teaching), supporting them with search skills, critical thinking (e.g. disinformation, misinformation and fake news), age appropriate materials and signposting, and legal issues such as copyright and data law.

At the **Goldsborough Sicklinghall Federation**, we recognise that online safety and broader digital resilience must be thread throughout the curriculum and that is why we are working to embed the objectives from ‘Education for a Connected World – 2020 edition’ from UKCIS (the UK Council for Internet Safety across Computing, PSHE and the wider curriculum.

Regular reviews of curriculum plans / schemes of work (including for SEND pupils) are used as an opportunity to follow this framework more closely in its key areas of Self-image and Identity, Online relationships, Online reputation, Online bullying, Managing online information, Health, Wellbeing and lifestyle, Privacy and security, and Copyright and ownership.

## Handling online-safety concerns and incidents

It is vital that all staff recognise that online-safety is a part of safeguarding (as well as being a curriculum strand of Computing, PSHE/RSHE and Citizenship).

General concerns must be handled in the same way as any other safeguarding concern; safeguarding is often referred to as a jigsaw puzzle, so all stakeholders should err on the side of talking to the online-safety lead / designated safeguarding lead to contribute to the overall picture or highlight what might not yet be a problem.

Support staff will often have a unique insight and opportunity to find out about issues first in the playground, corridors, toilets and other communal areas outside the classroom (particularly relating to bullying and sexual harassment and violence).

School procedures for dealing with online-safety will be mostly detailed in the following policies (primarily in the first key document):

- Safeguarding and Child Protection Policy
- A Relationship Approach to Positive Behaviour and Anti-Bullying Policy
- Acceptable Use Policies
- Data Protection Policy, and associated documentation (e.g. privacy notices and consent forms for data sharing, image use etc)

This school commits to take all reasonable precautions to ensure online safety, but recognises that incidents will occur both inside school and outside school (and that those from outside school will continue to impact pupils when they come into school or during extended periods away from school). All members of the school are encouraged to report issues swiftly to allow us to deal with them quickly and sensitively through the school's escalation processes.

Any suspected online risk or infringement should be reported to the online safety lead / designated safeguarding lead on the same day (in person or via CPOMS alert) – where clearly urgent, it will be made immediately. **The school Smoothwall system is also set up to provide instant alerts for certain infringements and weekly reports to the Designated Safeguarding Lead for staff and pupils.**

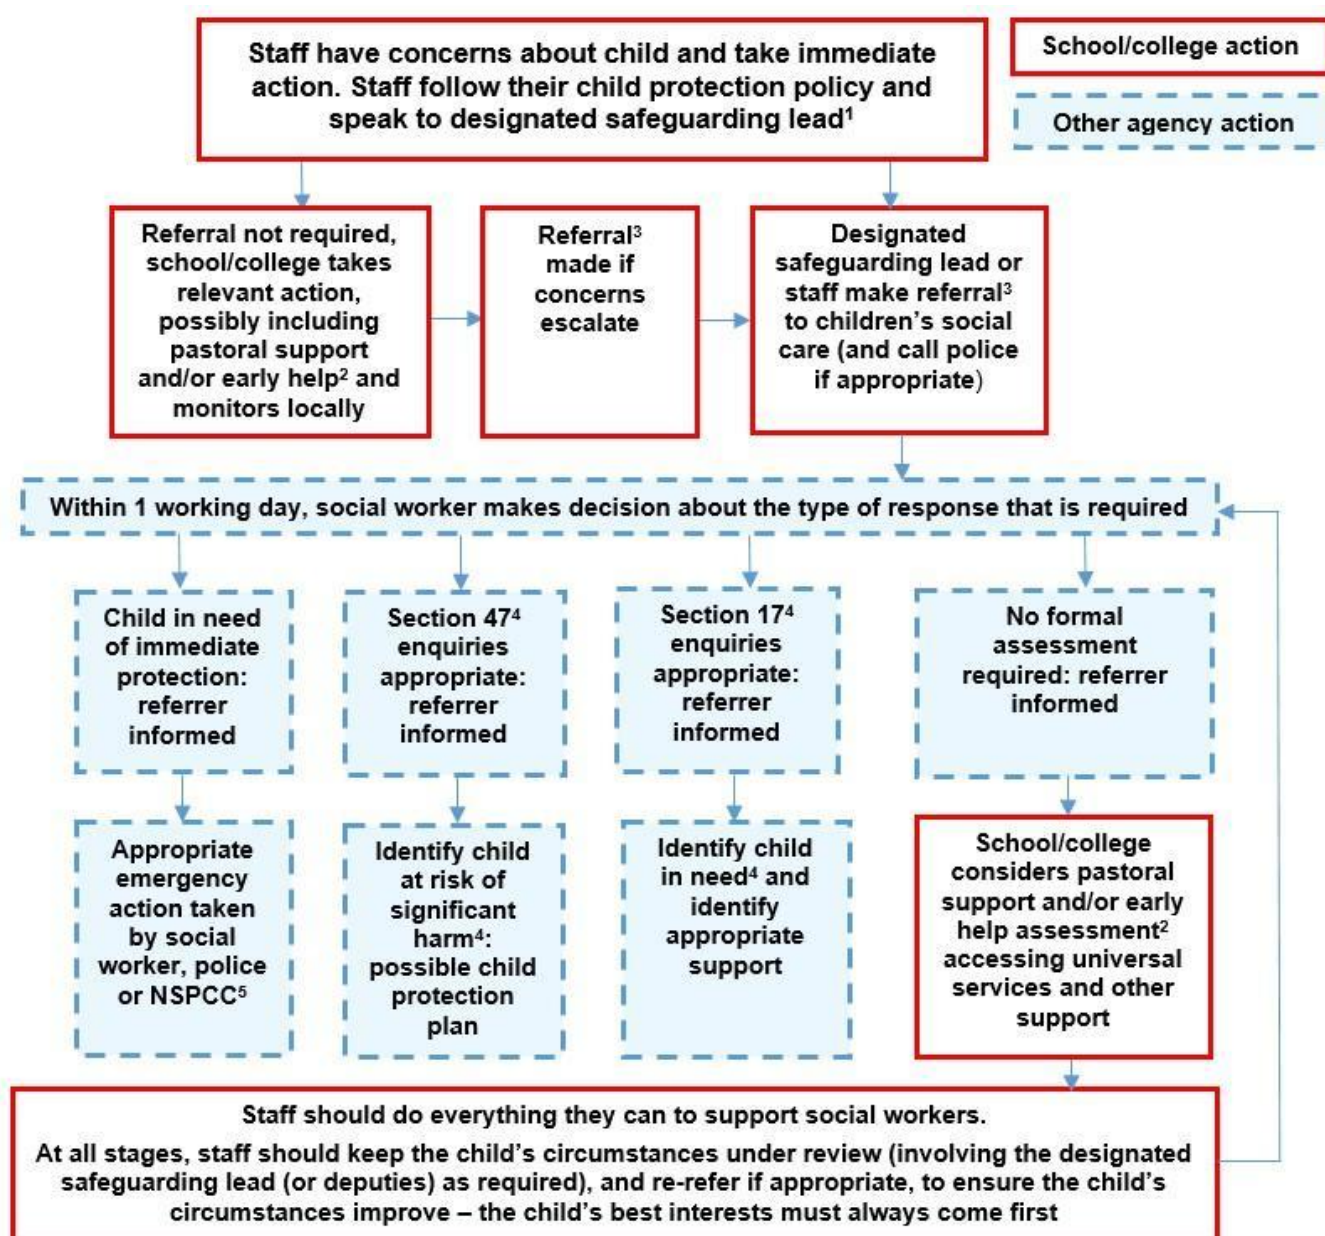

Any concern/allegation about staff misuse is always referred directly to the Headteacher, unless the concern is about the Headteacher in which case the complaint is referred to the Chair of Governors and the LADO (Local Authority's Designated Officer). Staff may also use the NYCC Whistleblowing Helpline (see posters around school)

The school will actively seek support from other agencies as needed (i.e. the local authority, UK Safer Internet Centre's Professionals' Online Safety Helpline (POSH), NCA CEOP, Prevent Officer, Police, IWF and Harmful Sexual Behaviour Support Service). The new DfE guidance [Behaviour in Schools, advice for headteachers and school staff](#) July 2022 provides advice and related legal duties including support for pupils and powers of staff when responding to incidents – see pages 32-34 for guidance on child on child sexual violence and harassment, behaviour incidents online and mobile phones.

We will inform families of online-safety incidents involving their children, and the Police where staff or pupils engage in or are subject to behaviour which we consider is particularly disturbing or breaks the law (particular procedures are in place for sexting and upskirting; see section below).

## Actions where there are concerns about a child

The following flow chart is taken from page 22 of Keeping Children Safe in Education 2022 as the key education safeguarding document. As outlined previously, online safety concerns are no different to any other safeguarding concern.

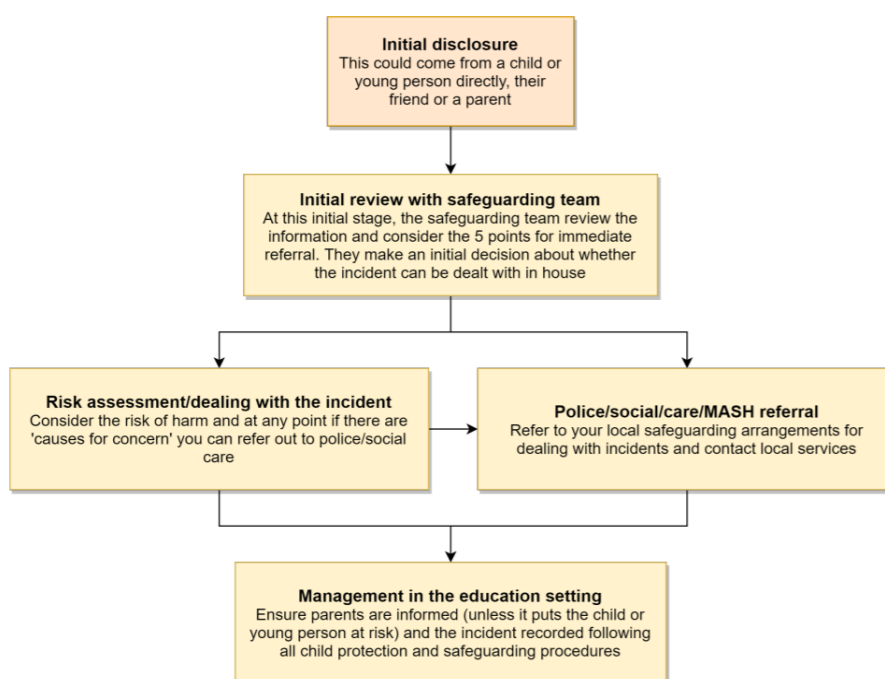

## Sexting – sharing nudes and semi-nudes

All schools (regardless of phase) should refer to the updated UK Council for Internet Safety (UKCIS) guidance on sexting - now referred to as [Sharing nudes and semi-nudes: advice for education settings](#) to avoid unnecessary criminalisation of children. NB - where one of the parties is over 18, this is no longer sexting but child sexual abuse.

There is a one-page overview called [Sharing nudes and semi-nudes: how to respond to an incident](#) for all staff (not just classroom-based staff) to read, in recognition of the fact that it is mostly someone other than the designated safeguarding lead (DSL) or online safety lead to first become aware of an incident, and it is vital that the correct steps are taken. Staff other than the DSL must not attempt to view, share or delete the image or ask anyone else to do so, but to go straight to the DSL.

The school DSL will in turn use the full guidance document, [Sharing nudes and semi-nudes – advice for educational settings](#) to decide next steps and whether other agencies need to be involved.

**\*Consider the 5 points for immediate referral at initial review:**

1. The incident involves an adult
2. There is reason to believe that a child or young person has been coerced, blackmailed or groomed, or there are concerns about their capacity to consent (for example, owing to special educational needs)
3. What you know about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent
4. The images involves sexual acts and any pupil in the images or videos is under 13
5. You have reason to believe a child or young person is at immediate risk of harm owing to the sharing of nudes and semi-nudes, for example, they are presenting as suicidal or self-harming

It is important that everyone understands that whilst sexting is illegal, pupils/students can come and talk to members of staff if they have made a mistake or had a problem in this area.

## Upskirting

It is important that everyone understands that upskirting (taking a photo of someone under their clothing, not necessarily a skirt) is now a criminal offence and constitutes a form of sexual harassment as highlighted in Keeping Children Safe in Education. As with other forms of child on child abuse pupils/students can come and talk to members of staff if they have made a mistake or had a problem in this area.

## Bullying

Online bullying, including incidents that take place outside school or from home should be treated like any other form of bullying and the school bullying policy should be followed for online bullying, which may also be referred to as cyberbullying, including issues arising from banter. (See A Relationship Approach to Positive Behaviour and Anti-Bullying Policy).

## Sexual violence and harassment

DfE guidance on sexual violence and harassment has now been incorporated into Keeping Children Safe in Education and is no longer a document in its own right. It would be useful for all staff to be aware of this updated guidance: Part 5 covers the immediate response to a report, providing reassurance and confidentiality which is highly relevant for all staff; the case studies section provides a helpful overview of some of the issues which may arise.

Any incident of sexual harassment or violence (online or offline) should be reported to the DSL who will follow the full guidance. Staff should work to foster a zero-tolerance culture and maintain an attitude of **'it could happen here'**. The guidance stresses that schools must take all forms of sexual violence and harassment seriously, explaining how it exists on a continuum and that behaviours incorrectly viewed as 'low level' are treated seriously and not allowed to perpetuate. The document makes specific reference to behaviours such as bra-strap flicking and the careless use of language.

## Misuse of school technology (devices, systems, networks or platforms)

Clear and well communicated rules and procedures are essential to govern pupil and adult use of school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

These are defined in the relevant Acceptable Use Policy as well as in this document, for example in the sections relating to the professional and personal use of school platforms/networks/clouds, devices and other technology.

Where pupils contravene these rules, the school behaviour policy will be applied; where staff contravene these rules, action will be taken as outlined in the Staff Code of Conduct.

It will be necessary to reinforce these as usual at the beginning of any school year but also to remind pupils that **the same applies for any home learning** that may take place in future periods of absence/closure/quarantine etc.

Further to these steps, the school reserves the right to withdraw – temporarily or permanently – any or all access to such technology, or the right to bring devices onto school property.

## Social media incidents

See the social media section later in this document for rules and expectations of behaviour for children and adults in the **Goldsborough Sicklinghall Federation**. These are also governed by school Acceptable Use Policies.

Breaches will be dealt with in line with the School Behaviour Policy (for pupils) or Code of Conduct for staff.

Further to this, where an incident relates to an inappropriate, upsetting, violent or abusive social media post by a member of the **Goldsborough Sicklinghall Federation** community, the school will request that the post be deleted and will expect this to be actioned promptly.

Where an offending post has been made by a third party, the school may report it to the platform it is hosted on, and may contact the Professionals' Online Safety Helpline, POSH, (run by the UK Safer Internet Centre) for support or help to accelerate this process.

## Data protection and data security

All GDPR policies and privacy notices can be found on the school website.

There are references to the relationship between data protection and safeguarding in key Department for Education documents 'Keeping Children Safe in Education' and 'Data protection: a toolkit for schools' (August 2018), which the DPO and DSL will seek to apply. This quote from the latter document is useful for all staff.

**“GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Lawful and secure information sharing between schools, Children’s Social Care, and other local agencies, is essential for keeping children safe and ensuring they get the support they need. The Data Protection Act 2018 introduced ‘safeguarding’ as a reason to be able to process sensitive, personal information, even without consent (DPA, Part 2,18; Schedule 8, 4) When Designated Safeguarding Leads in schools are considering whether, or not, to share safeguarding information (especially with other agencies) it is considered best practice for them to record who they are sharing that information with and for what reason. If they have taken a decision not to seek consent from the data subject and/or parent/carer that should also be recorded within the safeguarding file. All relevant information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information must not be allowed to stand in the way of promoting the welfare and protecting the safety of children.”**

All pupils, staff, governors, volunteers, contractors and parents are bound by the school’s data protection policy and agreements, which can be found on the school website.

Rigorous controls on the federation network, sign-on for technical services, firewalls and filtering all support data protection. The following data security products are also used to protect the integrity of data, which in turn supports data protection: Windows Security and Mosyle Device Management.

The Headteacher, data protection officer, governors and the Yorkshire Causeway Trust IT Support Team work together to ensure a GDPR-compliant framework for storing data, but which ensures that child protection is always put first and data-protection processes support careful and legal sharing of information.

Staff are reminded that all safeguarding data is highly sensitive and should be treated with the strictest confidentiality at all times, and only shared via approved channels to colleagues or agencies with

appropriate permissions. The use of Microsoft Office / Egress to encrypt all non-internal emails is compulsory for sharing pupil data. If this is not possible, the DPO and DSL should be informed in advance.

## Appropriate filtering and monitoring

Keeping Children Safe in Education obliges schools to “ensure appropriate filters and appropriate monitoring systems are in place [and] not be able to access harmful or inappropriate material [but at the same time] be careful that “over blocking” does not lead to unreasonable restrictions as to what children can be taught with regards to online teaching and safeguarding.”

At the **Goldsborough Sicklinghall Federation**, the internet connection is provided by British Telecom and monitored by the Yorkshire Causeway Trust IT Support Team. This means we have a dedicated and secure, schoolsafe connection that is protected with firewalls and multiple layers of security, including a web filtering smoothwall, which is made specifically to protect children in schools. **This ensures harmful content is blocked, even if it is searched for and the Federation Headteacher and Assistant Headteacher receive immediate alerts should this happen.**

When pupils or staff log into any school system on a personal device, activity may also be monitored here.

## Electronic communications

Please read this section alongside references to pupil-staff communications in the overall school Safeguarding Policy, and in conjunction with the Data Protection Policy. This section only covers electronic communications, but the same principles of transparency, appropriate conduct and audit trail apply.

## Email

- Staff at this school use Microsoft Office and TEAMS for all school communication.

This is linked to the USO authentication system and are fully auditable, trackable and managed by the Yorkshire Causeway Trust on behalf of the school. This is for the mutual protection and privacy of all staff, pupils and parents, as well as to support data protection.

General principles for email use are as follows:

- Email from the School Office via Microsoft Office Email/ ParentMail/Scholarpack/ParentPay are the only means of electronic communication to be used between staff and parents (in both directions). Use of a different platform must be approved in advance by the data-protection officer / headteacher in advance. Any unauthorised attempt to use a different system may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).
- Email may only be sent using the email systems above. There should be no circumstances where a private email is used; if this happens by mistake, the DSL/Headteacher/DPO (the particular circumstances of the incident will determine whose remit this is) should be informed immediately.
- Staff or pupil personal data should never be sent/shared/stored on email.
  - If data needs to be shared with external agencies, Egress systems are available.

- Appropriate behaviour from staff and pupils is expected at all times, and the system should not be used to send inappropriate materials or language which is or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which (for staff) might bring the school into disrepute or compromise the professionalism of staff
- Pupils and staff are NOT allowed to use the email system for personal use and should be aware that all use is monitored, their emails may be read and the same rules of appropriate behaviour apply at all times. Emails using inappropriate language, images, malware or to adult sites may be blocked and not arrive at their intended destination. Any suspicious/unacceptable behaviours will be flagged through the smoothwall alert system and investigated by the Headteacher/AHT.

See also the social media section of this policy.

## School website

The school website is a key public-facing information portal for the school community (both existing and prospective stakeholders) with a key reputational value. The Headteacher/Principal and Governors have delegated the day-to-day responsibility of updating the content of the website to teaching staff. The site is managed by / hosted by Paul Driver at easable.net – Clever Websites for Schools.

Where other staff submit information for the website, they are asked to remember:

- Schools have the same duty as any person or organisation to respect and uphold copyright law – schools have been fined thousands of pounds for copyright breaches. Sources must always be credited and material only used with permission. If in doubt, check with the Headteacher. There are many open-access libraries of high-quality public-domain images that can be used.
- Where pupil work, images or videos are published on the website, their identities are protected and full names are not published (remember also not to save images with a filename that includes a pupil's full name).

## Cloud platforms

For online safety, basic rules of good password hygiene (“Treat your password like your toothbrush – never share it with anyone!”), expert administration and training can help to keep staff and pupils safe, and to avoid incidents. This is communicated with staff as part of their GDPR training to ensure all pupil data is secure. The Yorkshire Causeway Trust IT Support Team analyse and document systems before they are implemented, and regularly review them.

The following principles apply:

- The DPO approves new cloud systems, what may or may not be stored in them and by whom. This is noted in a DPIA (data-protection impact statement) and parental permission is sought
- Regular training ensures all staff understand sharing functionality and this is audited to ensure that pupil data is not shared by mistake. Open access or widely shared folders are clearly marked as such
- Pupils and staff are only given access and/or sharing rights when they can demonstrate an understanding of what data may be stored and how it can be seen
- Two-factor authentication is used for access to sensitive pupil data (CPOMS)
- Pupil images/videos are only made public with parental permission
- Only school-approved platforms are used by students or staff to store pupil work
- All stakeholders understand the difference between consumer and education products (e.g. a private Gmail account or Google Drive and those belonging to a managed educational domain)

## Digital images and video

When a pupil/student joins the school, parents/carers are asked if they give consent for their child's image to be captured in photographs or videos, for what purpose (beyond internal assessment, which does not require express consent) and for how long. Parents answer as follows:

- For displays around the school
- For the newsletter
- For use in paper-based school marketing
- For online prospectus or websites
- For a specific high profile image for display or publication
- For social media

For further detail, refer to the General Media permission / Alternative Media Permission

Whenever a photo or video is taken/made, the member of staff taking it will check the latest consent information before using it for any purpose.

Any pupils shown in public facing materials are never identified with more than first name (and photo file names/tags do not include full names to avoid accidentally sharing them).

All staff are governed by their contract of employment and the school's Acceptable Use Policy, which covers the use of mobile phones/personal equipment for taking pictures of pupils, and where these are stored. At the **Goldsborough Sicklinghall Federation**, no member of staff will ever use their personal phone to capture photos or videos of pupils (with the exception of residential activities where members of staff may be authorised by the Headteacher to take photos to be sent for use on the Federation Twitter account and then immediately deleted from the device. All of these images/videos will be appropriate, linked to school activities, taken without secrecy and not in a one-to-one situation.

Photos are stored on the school network in line with the retention schedule of the school Data Protection Policy.

Staff and parents are reminded annually about the importance of not sharing without permission, due to reasons of child protection (e.g. looked-after children often have restrictions for their own protection), data protection, religious or cultural reasons, or simply for reasons of personal privacy.

We encourage young people to think about their online reputation and digital footprint, so we should be good adult role models by not oversharing (or providing embarrassment in later life – and it is not for us to judge what is embarrassing or not).

Pupils are taught about how images can be manipulated in their online safety education programme and also taught to consider how to publish for a wide range of audiences which might include governors, parents or younger children

Pupils are advised to be very careful about placing any personal photos on social media. They are taught to understand the need to maintain privacy settings so as not to make public, personal information.

Pupils are taught that they should not post images or videos of others without their permission. We teach them about the risks associated with providing information with images (including the name of the file), that reveals the identity of others and their location. We teach them about the need to keep their data secure and what to do if they / or a friend are subject to bullying or abuse.

## Social media

### Goldsborough Sicklinghall Federation's SM presence

The **Goldsborough Sicklinghall Federation** works on the principle that if we don't manage our social media reputation, someone else will.

Online Reputation Management (ORM) is about understanding and managing our digital footprint (everything that can be seen or read about the school online). Few parents will apply for a school place without first 'googling' the school, and the Ofsted pre-inspection check includes monitoring what is being said online (Mumsnet is a favourite).

Negative coverage almost always causes some level of disruption. Up to half of all cases dealt with by the Professionals Online Safety Helpline (POSH: [helpline@saferinternet.org.uk](mailto:helpline@saferinternet.org.uk)) involve schools' (and staff members') online reputation.

Accordingly, we manage and monitor our social media footprint carefully to know what is being said about the school and to respond to criticism and praise in a fair, responsible manner. The **Goldsborough Sicklinghall Federation** Twitter account is managed by the Headteacher.

### Staff, pupils' and parents' SM presence

Social media (including here all apps, sites and games that allow sharing and interaction between users) is a fact of modern life, and as a school, we accept that many parents, staff and pupils will use it. However, as stated in the acceptable use policies which all members of the school community sign, we expect everybody to behave in a positive manner, engaging respectfully with the school and each other on social media, in the same way as they would face to face.

This positive behaviour can be summarised as not making any posts which are or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which might bring the school or (particularly for staff) teaching profession into disrepute. This applies both to public pages and to private posts, e.g. parent chats, pages or groups.

If parents have a concern about the school, we would urge them to contact us directly and in private to resolve the matter. If an issue cannot be resolved in this way, the school complaints procedure should be followed. Sharing complaints on social media is unlikely to help resolve the matter, but can cause upset to staff, pupils and parents, also undermining staff morale and the reputation of the school (which is important for the pupils we serve).

Many social media platforms have a minimum age of 13 (note that WhatsApp is 16+), but the school regularly deals with issues arising on social media with pupils/students under the age of 11. We ask parents to respect age ratings on social media platforms wherever possible and not encourage or condone underage use. It is worth noting that Online Harms regulation is likely to require more stringent age verification measures over the coming years.

However, the school has to strike a difficult balance of not encouraging underage use at the same time as needing to acknowledge reality in order to best help our pupils to avoid or cope with issues if they arise. Online safety lessons will look at social media and other online behaviour, how to be a good friend online and how to report bullying, misuse, intimidation or abuse. However, children will often learn most from the models of behaviour they see and experience, which will often be from adults.

Parents can best support this by talking to their children about the apps, sites and games they use (you don't need to know them – ask your child to explain it to you), with whom, for how long, and when (late at night / in bedrooms is not helpful for a good night's sleep and productive teaching and learning at school the next day). You may wish to refer to the new [Digital Family Agreement](#) to help establish shared expectations and the [Top Tips for Parents](#) poster along with relevant items and support available from the North Yorkshire Safeguarding Board <https://www.safeguardingchildren.co.uk/parents-carers/online-safety/> and introduce the [Children's Commission Digital 5 A Day](#).

The Federation has an official Twitter account (managed by the Headteacher) and will respond to general enquiries about the school, but asks parents/carers not to use these channels to ask general enquiries about their children/school life.

Email is the official electronic communication channel between parents and the school, and between staff and pupils.

Pupils are not allowed\* to be 'friends' with or make a friend request\*\* to any staff, governors, volunteers and contractors or otherwise communicate via social media.

Pupils are discouraged from 'following' staff, governor, volunteer or contractor public accounts (e.g. following a staff member with a public Instagram account). However, we accept that this can be hard to control (but this highlights the need for staff to remain professional in their private lives). In the reverse situation, however, staff must not follow such public pupil accounts.

\* Exceptions may be made, e.g. for pre-existing family links, but these must be approved by the Headteacher/Principal, and should be declared upon entry of the pupil or staff member to the school).

\*\* Any attempt to do so may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

Staff are reminded that they are obliged not to bring the school or profession into disrepute and the easiest way to avoid this is to have the strictest privacy settings and avoid inappropriate sharing and oversharing online. They should never discuss the school or its stakeholders on social media and be careful that their personal opinions might not be attributed to the school, trust or local authority, bringing the school into disrepute.

The serious consequences of inappropriate behaviour on social media are underlined by the fact that during the last 6 years, there have been 333 Prohibition Orders issued by the Teacher Regulation Agency to teaching staff that involved misuse of social media/technology.

The statements of the Acceptable Use Policies (AUPs) which all members of the school community have signed are also relevant to social media activity, as is the school's Data Protection Policy.

## Device usage

Remind those with access to school devices about rules on the misuse of school technology – devices used at home should be used just like if they were in full view of a teacher or colleague. Please read the following in conjunction with acceptable use policies and the following sections of this document which all impact upon device usage: copyright, data protection, social media, misuse of technology, and digital images and video.

## Personal devices including wearable technology and bring your own device (BYOD)

- **Pupils/students** are allowed to bring mobile phones in for emergency use only. These will be kept in the school office and returned at the end of the school day. Any attempt to use a phone in lessons without permission will lead to sanctions (as per the Federation Behaviour Policy). Important messages and phone calls to or from parents can be made at the school office, which will also pass on messages from parents to pupils in emergencies.
- **All staff who work directly with children** should leave their mobile phones on silent and only use them in private staff areas during school hours. During hours where children are in school, mobile phones should be locked away or stored in the office or personal locker/classroom cupboards/adult only areas. If a staff member is expecting an important personal call when teaching or otherwise on duty, they may leave their phone with the school office to answer on their behalf or ask for the message to be left with the school office.
- **Volunteers, contractors, governors** should leave their phones in their pockets or stored away in staff only areas. Under no circumstances should they be used in the presence of children or to take photographs or videos. However, if this is to take photos of equipment or the building, permission must be sought from SLT or the administrator and this must be witnessed by them. If this is required (e.g. for contractors to take photos of equipment or buildings), permission of the Headteacher should be sought and this should be done in the presence of a member staff.
- **Parents** should ask permission before taking any photos in the school building or on school grounds, e.g. of displays in corridors or classrooms, and avoid capturing other children. When at school events, parents are allowed to film/take photos of their child but these **MUST NOT** be shared on social media.

## Network / internet access on school devices

- **Pupils/students** are not allowed to use personal devices in school.
- **Home devices** are not issued to pupils.
- **All staff who work directly with children** should leave their mobile phones on silent and only use them in private staff areas during school hours. Pupil /staff data should never be downloaded onto a private phone.
- **Volunteers, contractors, governors** can request access to the wireless network but have no access to networked files/drives, subject to the acceptable use policy. All internet traffic is monitored.
- **Parents** have no access to the school network or wireless internet on personal devices.

## **Trips / events away from school**

For school trips/events away from school, teachers will use their personal mobile phones to contact school and/or parents in an emergency. Teachers using their personal phone in an emergency will ensure that the number is hidden to avoid a parent or student accessing a teacher's private phone number. The Federation Twitter account will be used to share images of the children and activities while children are on residential visits. Please also refer to pg. 14 (Digital images) section for further information.

## **Searching and confiscation**

In line with the DfE guidance '[Searching, screening and confiscation: advice for schools](#)', the Headteacher and staff authorised by them have a statutory power to search pupils/property on school premises. This includes the content of mobile phones and other devices, for example as a result of a reasonable suspicion that a device contains illegal or undesirable material, including but not exclusive to sexual images, pornography, violence or bullying.

Full details of the school's search procedures are available in the school Behaviour Policy.

## **Appendix 1 – Roles**

Please read the relevant roles & responsibilities section from the following pages.

School staff – note that you may need to read two sections – if your role is reflected here, you should still read the "All Staff" section.

Roles:

- All Staff
- Headteacher
- Designated Safeguarding Lead / Online Safety Lead
- Governing Body, led by Online Safety / Safeguarding Link Governor
- PSHE / RSHE Lead
- Computing Lead
- Subject leaders
- Network Manager/technician
- Data Protection Officer (DPO)
- Volunteers and contractors (including tutor)
- Pupils
- Parents/carers
- External groups including parent associations (PTFA / FROGS)

### Key responsibilities:

- Read and follow this policy in conjunction with the school's main safeguarding policy and the relevant parts of Keeping Children Safe in Education
- Understand that online safety is a core part of safeguarding and part of everyone's job – never think that someone else will pick it up. Safeguarding is often referred to as a jigsaw puzzle – you may have the missing piece, so do not keep anything to yourself. Record online-safety incidents in the same way as any safeguarding incident; report in accordance with school procedures
- Know who the Designated Safeguarding Lead (DSL) and Online Safety Lead (OSL) are; notify them not just of concerns but also of trends and general issues you may identify. Also speak to them if policy does not reflect practice and follow escalation procedures if concerns are not promptly acted upon
- Sign and follow the Staff Acceptable Use Policy and Code of Conduct
- Identify opportunities to thread online safety through all school activities as part of a whole school approach in line with the RSHE curriculum, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise (which have a unique value for pupils)
- Whenever overseeing the use of technology in school or for homework or remote teaching, encourage and talk about appropriate behaviour and how to get help and consider potential risks and the age-appropriateness of websites (find out what appropriate filtering and monitoring systems are in place and how they keep children safe).
- Follow best-practice pedagogy for online-safety education, avoiding scaring, victim-blaming language and other unhelpful prevention methods.
- When supporting pupils remotely, be mindful of additional safeguarding considerations – refer to the [remotesafe.lgfl.net](https://remotesafe.lgfl.net) infographic which applies to all online learning.
- Carefully supervise and guide pupils when engaged in learning activities involving online technology, supporting them with search skills, critical thinking, age-appropriate materials and signposting, and legal issues such as copyright and GDPR.
- Be aware of security best-practice at all times, including password hygiene and phishing strategies.
- Prepare and check all online sources and classroom resources **before using** for accuracy and appropriateness.
- Encourage pupils/students to follow their acceptable use policy at home as well as at school, remind them about it and enforce school sanctions.
- Take a zero-tolerance approach to all forms of child-on-child abuse, not dismissing it as banter - this includes bullying, sexual violence and harassment.
- Be aware that you are often most likely to see or overhear online-safety issues (particularly relating to bullying and sexual harassment and violence) in the playground, corridors, toilets and other communal areas outside the classroom – let the DSL/DDSL know
- Receive and read regular updates from the DSL/DDSL and have a healthy curiosity for online safeguarding issues
- Model safe, responsible and professional behaviours in your own use of technology. This includes outside school hours and site, and on social media, in all aspects upholding the reputation of the school and of the professional reputation of all staff. More guidance on this point can be found in this [Online Reputation](#) guidance for schools.

### Key responsibilities:

- Foster a culture of safeguarding where online safety is fully integrated into whole-school safeguarding
- Oversee and support the activities of the designated safeguarding lead team and ensure they work technical colleagues to complete an online safety audit in line with KCSIE (including technology in use in the school)
- Undertake training in offline and online safeguarding, in accordance with statutory guidance and Local Safeguarding Children Partnership support and guidance
- Ensure ALL staff undergo safeguarding training (including online safety) at induction and with regular updates and that they agree and adhere to policies and procedures
- Ensure ALL governors and trustees undergo safeguarding and child protection training and updates (including online safety) to provide strategic challenge and oversight into policy and practice and that governors are regularly updated on the nature and effectiveness of the school's arrangements [ LGfL's Safeguarding Training for School Governors is free to all governors at [safetraining.lgfl.net](https://safetraining.lgfl.net) ]
- Ensure the school implements and makes effective use of appropriate ICT systems and services including school-safe filtering and monitoring, protected email systems and that all technology including remote systems are implemented according to child-safety first principles
- Liaise with technical colleagues on a regular basis to have an understanding and awareness of filtering and monitoring provisions and manage them effectively – in particular understand what is blocked or allowed for whom, when, and how. Note that KCSIE 2022 strengthens the wording for this.
- Liaise with the designated safeguarding lead on all online-safety issues which might arise and receive regular updates on school issues and broader policy and practice information
- Support safeguarding leads and technical staff as they review protections for pupils in the home and remote-learning procedures, rules and safeguards [ see [remotesafe.lgfl.net](https://remotesafe.lgfl.net) infographic overview of safeguarding considerations for remote teaching technology ]
- Assign responsibility to a nominated member of staff to carry out online searches with consistent guidelines as part of due diligence for the recruitment shortlist process (this new addition has come into KCSIE 2022 for the first time)
- Take overall responsibility for data management and information security ensuring the school's provision follows best practice in information handling; work with the DPO, DSL and governors to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Understand and make all staff aware of procedures to be followed in the event of a serious online safeguarding incident
- Ensure suitable risk assessments are undertaken so the curriculum meets needs of pupils, including risk of children being radicalised
- Ensure the school website meets statutory requirements.

## Designated Safeguarding Lead / Online Safety Lead – Mrs Zoe Ellis / Mrs Catherine Richards in liaison with Computing Subject Leader

**Key responsibilities** (remember the DSL can delegate certain online safety duties, e.g. to the online-safety coordinator, but not the overall responsibility; this assertion and all quotes below are from Keeping Children Safe in Education):

- “The designated safeguarding lead should take **lead responsibility** for safeguarding and child protection [including online safety] ... this **lead** responsibility should not be delegated”
- Where the online-safety coordinator is not the named DSL or deputy DSL, ensure there is regular review and open communication between these roles and that the DSL’s clear overarching responsibility for online safety is not compromised
- Ensure “An effective whole school approach to online safety that empowers a school or college to protect and educate the whole school or college community in their use of technology and establishes mechanisms to identify, intervene in and escalate any incident where appropriate.”
- Ensure ALL staff undergo safeguarding and child protection training (including online safety) at induction and that this is regularly updated
- Liaise with the Headteacher and Chair of Governors to ensure that ALL governors and trustees undergo safeguarding and child protection training (including online safety) at induction to enable them to provide strategic challenge and oversight into policy and practice and that this is regularly updated – See ‘What do SLT and Governors need to know’ at <https://lgfl.planetestream.com/View.aspx?ID=3350~4l~LrqjFjRa>
- Take day-to-day responsibility for online safety issues and be aware of the potential for serious child protection concerns
- Be mindful of using appropriate language and terminology around children when managing concerns, including avoiding victim-blaming language [ see <https://lgfl.planetestream.com/View.aspx?id=4420~4k~jFaIVgFN> for a resource to use with staff on how framing things linguistically can have a safeguarding impact, and some expressions we use might be unhelpful ]
- Remind staff of safeguarding considerations as part of a review of remote learning procedures and technology, including that the same principles of online safety and behaviour apply
- Work closely with SLT, staff and technical colleagues to complete an online safety audit (including technology in use in the school) – [see LGfL’s template with questions to use at [onlinesafetyaudit.lgfl.net](https://onlinesafetyaudit.lgfl.net) ]
- Work with the headteacher, DPO and governors to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Stay up to date with the latest trends in online safeguarding and undertake Prevent awareness training.
- Review and update this policy, other online safety documents (e.g. Acceptable Use Policies) and the strategy on which they are based (in harmony with policies for behaviour, safeguarding, Prevent and others) and submit for review to the governors/trustees.

- Receive regular updates in online safety issues and legislation, be aware of local and school trends.
- Ensure that online safety education is embedded across the curriculum in line with the statutory RSHE guidance (e.g. by use of the updated UKCIS framework '[Education for a Connected World – 2020 edition](#)') and beyond, in wider school life
- Promote an awareness of and commitment to online safety throughout the school community, with a strong focus on parents, but also including hard-to-reach parents – dedicated resources at <https://www.safeguardingchildren.co.uk/parents-carers/> and <https://www.nspcc.org.uk/keeping-children-safe/online-safety/talking-child-online-safety/>
- Communicate regularly with SLT and the designated safeguarding and online safety governor/committee to discuss current issues (anonymised), review incident logs and filtering/change control logs and discuss how filtering and monitoring work and have been functioning/helping.
- Ensure all staff are aware of the procedures that need to be followed in the event of an online safety incident, and that these are logged in the same way as any other safeguarding incident.
- Ensure adequate provision for staff to flag issues when not in school and for pupils to disclose issues when off site, especially when in isolation/quarantine/lockdown, e.g. a safe, simple, online form on the school home page about 'something that worrying me' that gets mailed securely to the DSL inbox
- Oversee and discuss 'appropriate filtering and monitoring' with governors (is it physical or technical?) and ensure staff are also aware (Ofsted inspectors have asked classroom teachers about this). Liaise with technical teams and ensure they are implementing not taking the strategic decisions on what is allowed and blocked and why. Also, as per KCSIE "be careful that 'over blocking' does not lead to unreasonable restrictions".
- Ensure KCSIE 'Part 5: Sexual Violence & Sexual Harassment' is understood and followed throughout the school and that staff adopt a zero-tolerance, whole school approach to all forms of child-on-child abuse, and don't dismiss it as banter (including bullying).
- Facilitate training and advice for all staff, including supply teachers:
  - all staff must read KCSIE Part 1 and all those working with children also Annex B.
  - Annex A is now a condensed version of Part one and can be provided (instead of Part one) to those staff who do not directly work with children, if the governing body or proprietor think it will provide a better basis for those staff to promote the welfare and safeguard children.
  - cascade knowledge of risks and opportunities throughout the organisation
  - [cpd.lgfl.net](http://cpd.lgfl.net) has helpful CPD materials including PowerPoints, videos and more
  -

### **Governing Body, led by Online Safety / Safeguarding Link Governor – Mrs Jules Clegg**

#### **Key responsibilities (quotes are taken from Keeping Children Safe in Education)**

- Approve this policy and strategy and subsequently review its effectiveness, e.g. by asking the questions in the helpful document from the UK Council for Child Internet Safety (UKCIS) [Online safety in schools and colleges: Questions from the Governing Board](#)

- Undergo (and signpost all other governors and Trustees to attend) safeguarding and child protection training (including online safety) at induction to provide strategic challenge and into policy and practice, ensuring this is regularly updated.
- Ensure that all staff also receive appropriate safeguarding and child protection (including online) training at induction and that this is updated
- “Ensure appropriate filters and appropriate monitoring systems are in place [but...] be careful that ‘overblocking’ does not lead to unreasonable restrictions as to what children can be taught with regard to online teaching and safeguarding”.
- Ask about how the school has reviewed protections for **pupils in the home** (including when with online tutors) and **remote-learning** procedures, rules and safeguards.
- “Ensure an appropriate **senior member** of staff, from the school or college **leadership team**, is appointed to the role of DSL with **lead responsibility** for safeguarding and child protection (including online safety) with the appropriate status and authority and time, funding, training, resources and support...”
- Support the school in encouraging parents and the wider community to become engaged in online safety activities
- Have regular strategic reviews with the online-safety coordinator / DSL and incorporate online safety into standing discussions of safeguarding at governor meetings
- Where the online-safety coordinator is not the named DSL or deputy DSL, ensure that there is regular review and open communication between these roles and that the DSL’s clear overarching responsibility for online safety is not compromised
- Work with the DPO, DSL and headteacher to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Check all school staff have read Part 1 of KCSIE; SLT and all working directly with children have read Annex B
- Ensure that all staff undergo safeguarding and child protection training (including online safety) at induction. The training should be regularly updated in line with advice from the local three safeguarding partners integrated, aligned and considered as part of the overarching safeguarding approach.
- Ensure that children are taught about safeguarding, including online safety [...] as part of providing a broad and balanced curriculum [...] Consider a whole school or college approach to online safety [with] a clear policy on the use of mobile technology.”

## PSHE / RSHE Lead – Mrs Catherine Richards

### Key responsibilities:

- As listed in the ‘all staff’ section, plus:
- Embed consent, mental wellbeing, healthy relationships and staying safe online into the PSHE / Relationships education, relationships and sex education (RSE) and health education curriculum. “This will include being taught what positive, healthy and respectful online relationships look like,

the effects of their online actions on others and knowing how to recognise and display respectful behaviour online. Throughout these subjects, teachers will address online safety and appropriate behaviour in an age appropriate way that is relevant to their pupils' lives."

- Focus on the underpinning knowledge and behaviours outlined in [Teaching Online Safety in Schools](#) in an age appropriate way to help pupils to navigate the online world safely and confidently regardless of their device, platform or app.
- Assess teaching to "identify where pupils need extra support or intervention [through] tests, written assignments or self evaluations, to capture progress" .
- This complements the computing curriculum, which covers the principles of online safety at all key stages, with progression in the content to reflect the different and escalating risks that pupils face. This includes how to use technology safely, responsibly, respectfully and securely, and where to go for help and support when they have concerns about content or contact on the internet or other online technologies.
- Work closely with the DSL/DDSL and all other staff to ensure an understanding of the issues, approaches and messaging within PSHE / RSHE.
- Note that an RSHE policy should be included on the school website.
- Work closely with the Computing subject leader to avoid overlap but ensure a complementary whole-school approach, and with all other lead staff to embed the same whole-school approach

## Computing Lead – Miss Gaby Bartlett

### Key responsibilities:

- As listed in the 'all staff' section, plus:
- Oversee the delivery of the online safety element of the Computing curriculum in accordance with the national curriculum
- Work closely with the RSHE lead to avoid overlap but ensure a complementary whole-school approach
- Work closely with the DSL/DDSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing
- Collaborate with technical staff and others responsible for ICT use in school to ensure a common and consistent approach, in line with acceptable-use agreements

## Subject leaders

### Key responsibilities:

- As listed in the 'all staff' section, plus:
- Look for opportunities to embed online safety in your subject or aspect, especially as part of the new RSHE curriculum, and model positive attitudes and approaches to staff and pupils alike
- Consider how the UKCIS framework Education for a Connected World and Teaching Online Safety in Schools can be applied in your context

- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing
- Ensure subject specific action plans also have an online-safety element

## **Network Manager/technician – Karol de Lehenstein Collins (Yorkshire Causeway Trust)**

### **Key responsibilities:**

- As listed in the ‘all staff’ section, plus:
- Collaborate regularly with the DSL and leadership team to help them make key strategic decisions around the safeguarding elements of technology. Note that KCSIE changes expect a great understanding of technology and its role in safeguarding, so help DSLs and SLT to understand systems, settings and implications.
- Support DSLs and SLT to carry out an annual online safety audit as now recommended in KCSIE. This should also include a review of technology, including filtering and monitoring systems (what is allowed, blocked and why and how ‘over blocking’ is avoided as per KCSIE), Keep up to date with the school’s online safety policy and technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- Work closely with the designated safeguarding lead / online safety lead / data protection officer / PSHE and RSHE lead to ensure that school systems and networks reflect school policy and there are no conflicts between educational messages and practice.
- Ensure the above stakeholders understand the consequences of existing services and of any changes to these systems (especially in terms of access to personal and sensitive records / data and to systems such as YouTube mode, web filtering settings, sharing permissions for files on cloud platforms etc
- Maintain up-to-date documentation of the school’s online security and technical procedures
- To report online-safety related issues that come to their attention in line with school policy
- Manage the school’s systems, networks and devices, according to a strict password policy, with systems in place for detection of misuse and malicious attack, with adequate protection, encryption and backup for data, including disaster recovery plans, and auditable access controls.
- Monitor the use of school technology, online platforms and social media presence and that any misuse/attempted misuse is identified and reported in line with school policy
- Work with the Headteacher to ensure the school website meets statutory DfE requirements.

## **Data Protection Officer (DPO) – Veritau**

### **Key responsibilities:**

- NB – this document is not for general data-protection guidance.

- Be aware that of references to the relationship between data protection and safeguarding in key Department for Education documents ‘Keeping Children Safe in Education’ and ‘Data protection: a toolkit for schools’ (August 2018), especially this quote from the latter document:
- “GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Lawful and secure information sharing between schools, Children’s Social Care, and other local agencies, is essential for keeping children safe and ensuring they get the support they need. **The Data Protection Act 2018 introduced ‘safeguarding’ as a reason to be able to process sensitive, personal information, even without consent** (DPA, Part 2,18; Schedule 8, 4) When Designated Safeguarding Leads in schools are considering whether, or not, to share safeguarding information (especially with other agencies) it is considered best practice for them to record who they are sharing that information with and for what reason. If they have taken a decision not to seek consent from the data subject and/or parent/carer that should also be recorded within the safeguarding file. All relevant information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information **must not be allowed** to stand in the way of promoting the welfare and protecting the safety of children.”

The same document states that the retention schedule for safeguarding records may be required to be set as ‘Very long term need (until pupil is aged 25 or older)’. However, some local authorities require record retention until 25 for all pupil records.

- Work with the DSL, headteacher and governors to ensure frameworks are in place for the protection of data and of safeguarding information sharing as outlined above. You may be interested in the discounts for LGfL schools for three market-leading GDPR compliance solutions at [gdpr.lgfl.net](https://gdpr.lgfl.net)
- Ensure that all access to safeguarding data is limited as appropriate, and also monitored and audited

## Volunteers and contractors (including tutors)

### Key responsibilities:

- Read, understand, sign and adhere to an acceptable use policy (AUP)
- Report any concerns, no matter how small, to the designated safety lead / online safety coordinator as named in the AUP
- Maintain an awareness of current online safety issues and guidance
- Model safe, responsible and professional behaviours in their own use of technology at school and as part of remote teaching or any online communications
- Note that as per AUP agreement a contractor will never attempt to arrange any meeting, **including tutoring session**, without the full prior knowledge and approval of the school, and will never do so directly with a pupil. The same applies to any private/direct communication with a pupil.

## Pupils

### Key responsibilities:

- Read, understand, sign and adhere to the student/pupil acceptable use policy and review this annually
- Treat **home learning during any isolation/quarantine or bubble/school lockdown** in the same way as regular learning in school and behave as if a teacher or parent were watching the screen
- Avoid any private communication or use of personal logins/systems to communicate with or arrange meetings with school staff or tutors
- Understand the importance of reporting abuse, misuse or access to inappropriate materials, including any concerns about a member of school staff or supply teacher or online tutor
- Know what action to take if they or someone they know feels worried or vulnerable when using online technology, at school, home or anywhere else.
- To understand the importance of adopting safe and responsible behaviours and good online safety practice when using digital technologies outside of school and realise that the school's acceptable use policies cover actions out of school, including on social media
- Remember the rules on the misuse of school technology – devices and logins used at home should be used just like if they were in full view of a teacher.
- Understand the benefits/opportunities and risks/dangers of the online world and know who to talk to at school or outside school if there are problems

## Parents/carers

### Key responsibilities:

- Read, sign and promote the school's parental acceptable use policy (AUP) and read the pupil AUP and encourage their children to follow it
- Talk to the school if they have any concerns about their children's and others' use of technology
- Promote positive online safety and model safe, responsible, respectful and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers.
- Encourage children to engage fully in home-learning, whether for homework or during any school closures or isolation and flag any concerns
- Support the child during any home learning to avoid video calls in a bedroom if possible and if not, to ensure the child is fully dressed and not in bed, with the camera pointing away from beds/bedding/personal information etc. and the background blurred or changed where possible.
- If organising private online tuition, remain in the room if possible, ensure the child knows tutors should not arrange new sessions directly with the child or attempt to communicate privately.

## External groups including parent associations – FROGS /PTFA

### Key responsibilities:

- Any external individual/organisation will sign an acceptable use policy prior to using technology or the internet within school
- Support the school in promoting online safety and data protection
- Model safe, responsible, respectful and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers

## Appendix 2 – Related Policies and Documents

1. Safeguarding Incident log
2. Safeguarding and Child Protection Policy
3. Behaviour Policy
4. Staff Code of Conduct
5. \*Acceptable Use Policies (AUPs) for:
  - \*Pupils
  - \*Staff, Volunteers Governors & Contractors
  - \*Parents
6. \*Letter to parents about filming/photographing/streaming school events
7. \*Online-Safety Questions from the Governing Board (UKCIS)
8. \*Education for a Connected World cross-curricular digital resilience framework (UKCIS)
9. \*Safer working practice for those working with children & young people in education (Safer Recruitment Consortium)
10. \*Working together to safeguard children (DfE)
11. \*Searching, screening and confiscation advice (DfE)
12. \*Sharing nudes and semi-nudes guidance from UKCIS:
  - \*How to respond to an incident - overview for all staff
  - \*Full guidance for school DSLs
  - \*Online Safety Audit for Trainee (ITT) & Newly Qualified Teachers (NQT)
13. \*Prevent Duty Guidance for Schools (DfE and Home Office documents)
14. Data protection policy
15. \*Cyber security advice, procedures etc
16. \*Preventing and tackling bullying (DfE)
17. Cyber bullying: advice for headteachers and school staff (DfE) – find this at [bullying.lgfl.net](http://bullying.lgfl.net)
18. \*RAG (red-amber-green) audits for statutory requirements of school websites
19. \*Ofsted Review of sexual abuse in schools and colleges
